Journal of Economic Behavior and Organization

Experimental methodology a b s t r a c t of study effort provision a setting in a key-controlled research is area in experimental economics. There are two major methodological paradigms in this literature: stated effort and real effort. In the stated-effort paradigm the researcher uses an "effort function" that maps choices to outcomes.

The Method of Experimental Economics

experimental psychologist) and Vernon Smith (an experimental economist). This award acknowledges an important trend in economics - the growth of experiments as a valid, accepted methodology and the influence of psycho-logical research in that growth. 1 There are many similarities between experimental economics and psycho-logical research.

Introduction to The Handbook of Economic Methodology

Our goal for the Handbook of Economic Methodology was to provide a detailed and comprehensive coverage of the field of economic methodology. Since economic methodology has only become a self-conscious research area during the last decade or two, some readers might wonder why we decided to edit such a volume at this particular time.
