For the two-semester A&P laboratory course. Fully engage students in their A&P Lab experience Human Anatomy & Physiology Laboratory Manual: Making Connections distinguishes itself from other A&P lab manuals by focusing on and addressing the most common teaching challenges in the lab-getting students to engage in the lab, to prepare for the lab, and to apply concepts in the lab. Catharine Whiting's active learning approach incorporates a rich variety of hands-on activities and guided questions to get students engaged and asking questions. The 2nd Edition provides new features, such as "What You Need to Know Before You Start this Unit" at the beginning of each Unit and new Pre-Lab Video Coaching Activities to help students learn what they need to review before lab. Developed as the companion to Erin Amerman's Human Anatomy & Physiology, 2nd Edition, Whiting's lab manual reflects the same superb art program and terminology found in the Amerman textbook. Human Anatomy & Physiology Laboratory Manual: Making Connections, 2nd Edition is available in three versions for your students: Main, Cat and Fetal Pig. The Cat and Fetal Pig versions are identical to the Main version except that they include seven additional cat dissection and nine additional fetal pig dissection exercises, respectively, at the back of the lab manual. Also available with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual and include new Pre-Lab Video coaching activities, new Cat Dissection Video and Fetal Pig Dissection Video coaching activities, new fully mobile PAL 3.1 plus PAL 3.1 Customizable Flashcards, Learning Catalytics (tm) , A&P Flix 3D muscle animations, a variety of Art Labeling Questions, Clinical Application Questions, and more. Note: You are purchasing a standalone product; Mastering A&P does not come packaged with this content. Students, if interested in purchasing this title with Mastering A&P, ask your instructor for the correct package ISBN and Course ID. Laboratory Manual for Human Anatomy and Physiology 2/e includes a cat version, fetal pig version and a rat version. Each of these versions includes sixty-one laboratory exercises, supplemental labs found online, and six cat, fetal pig, or rat dissection labs. The Main Version contains no dissection exercises. All four versions are written to work well with any anatomy and physiology text. The study of human anatomy and physiology really comes to life in the anatomy and physiology laboratory, where students get hands-on experience with human cadavers and bones, classroom models, preserved and fresh animal organs, histology slides of human tissues, and learn the process of scientific discovery through physiology experimentation. This lab manual is intended to provide students with tools to make the subject matter more relevant to their own bodies and to the world around them. It is an interactive workbook for students: a 'how-to' guide to learning human anatomy and physiology through touch, dissection, observation, experimentation, and critical thinking exercises. For the two-semester A&P lab course. Practical, active learning exercises with a visual approach Visual Anatomy & Physiology Lab Manual (Stephen Sarikas) brings all of the strengths of the revolutionary Visual Anatomy & Physiology textbook (Martini/Ober/Nath/Bartholomew/Petti) to the lab. The 2nd Edition builds upon the visual approach and modular organization with new features to better prepare you for lab, maximize your learning, and reinforce important concepts. With an emphasis on clear, easy to follow figures (from the Martini Visual A&P text), frequent practice, and helping you make connections, the manual provides you with the powerful tools you need to excel. The two-page lab activity modules seamlessly integrate text and visuals to guide you through lab activities--with no page flipping. Lab practice consists of hands-on activities and assignable content in Mastering (TM) A&P, including new pre-lab quizzes, Review Sheets, and virtual lab study tools. Also available with Mastering A&P Mastering (TM) A&P is an online homework, tutorial, and assessment program designed to engage students and improve results. Instructors ensure that students arrive ready to learn in lab by assigning content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics(TM). Students can further master concepts after class through assignments that provide hints and answer-specific feedback. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. Note: You are purchasing a standalone product; Mastering(TM)

Martin, has been updated throughout. The new 14th edition is available in both a Cat version or a Fetal Pig version. Both versions of the 14th edition are organized into units that correlate directly with the text and include new and updated art to match Hole's Human Anatomy and Physiology, 14e. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Known for its carefully guided lab activities, accurate art and photo program, and unique practice and review tools that encourage students to draw, label, apply clinical content, and think critically, Wood, Laboratory Manual for Anatomy & Physiology featuring Martini Art , Cat Version, Fifth Edition offers a comprehensive approach to the two-semester A&P laboratory course. The stunning, full-color illustrations are adapted from Martini/Nath/Bartholomew, Fundamentals of Anatomy & Physiology, Ninth Edition, making this lab manual a perfect companion to that textbook for instructors who want lab manual art to match textbook art. The use of the Martini art also makes this lab manual a strong companion to Martini/Ober/Nath, Visual Anatomy & Physiology. This manual can also be used with any other two-semester A&P textbook for those instructors who want students in the lab to see different art from what is in their textbook. This lab manual is available in three versions: Main, Cat, and Pig. The Cat and Pig versions are identical to the Main version but also include nine cat or pig dissection exercises at the back of the lab manual. The Fifth Edition features more visually effective art and abundant opportunities for student practice in the manual. Helping millions of future healthcare professionals prepare for lab and practice lab concepts. Revered for its thorough, clearly written exercises and explanations, Human Anatomy & Physiology Laboratory Manual has provided millions of future healthcare professionals with a complete hands-on laboratory and learning experience. The fully revised Twelfth Edition provides a more active, workbook-style approach that incorporates visual summaries, streamlines information, and engages students with hands-on drawing and review activities. New features include assignable Pre-lab Videos that introduce students to the lab and related equipment, and "Why this Matters," which shows the relevance of lab activities to real-life and clinical examples. This edition is fully integrated with MasteringA&P, offering assignable visual media and activities that promote active learning and engage students. For the first time, the lab manual is publishing alongside Marieb/Hoehn's best-selling Human Anatomy & Physiology . Designed to meet the needs of the 2-semester A&P laboratory course, the manual can be used with any A&P textbook and is available in a customized edition, as well as in three conventional versions: Main (Eleventh Edition), Cat (Twelfth Edition), and Fetal Pig (Twelfth Edition). Also Available with MasteringA&P ® This title is also available with MasteringA&P — an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. This best-selling Laboratory Manual, written by Terry R. Martin to accompany Hole's Human Anatomy and Physiology, has been updated throughout. The new 15th edition is available in a Cat version or a Fetal Pig version. Students will focus on learning through hands-on experience with this time-tested and innovative lab guide. Students and instructors rely on superior quality from Elaine Marieb. This laboratory manual continues to present content that is comprehensive, clear, and compelling. A student-friendly design guides students as they work through the exercises. Includes full-color anatomy and histology atlases, and major dissection exercises. The material is appropriate for one- or two-semester courses. This updated version of the lab manual includes the

new PhysioEx V. 2.0 CD-ROM (A(c)2000) at no additional charge. PhysioEx provides a safe electronic environment to conduct experiments that demonstrate complex physiological principles. PhysioEx V. 2.0 includes two additional experiments on respiratory system mechanics and renal physiology, plus a histology tutorial with hundreds of images at four different levels of magnification with a labeling feature. The #1 best-selling book for the human anatomy course, Human Anatomy, Seventh Edition is widely regarded as the most readable and visually accessible book on the market. The new edition builds on the book's hallmark strengths--art that teaches better, a reader-friendly narrative, and easy-to-use media and assessment tools--and improves on them with new and updated Focus Figures and new in-text media references. This edition also features vivid new clinical photos that reinforce real-world applications, and new cadaver photos and micrographs that appear side-by-side with art-all to increase students' ability to more accurately visualize key anatomical structures. For the two-semester A&P laboratory course. Help manage time and improve learning inside and outside of the lab The #1 best-selling Human Anatomy & Physiology Laboratory Manual helps students and instructors manage time inside and outside of the A&P lab classroom and works hand-in-hand with Mastering A&P, the leading online homework and learning program for A&P. The 13th Edition features dozens of new, full-color figures and photos in the review sheets, as well as revamped clinical application questions and critical thinking questions that reinforce the most important concepts from lab. Encourage students to prepare for lab by assigning recommended Mastering A&P activities for each lab exercise, including 18 pre-lab videos (8 are new to this edition), Building Vocabulary Coaching Activities, exercise review sheet assessment questions, art labeling activities, mobile-ready Practice Anatomy Lab(tm) 3.1 with customizable flashcards, and more. Thousands of assignment options in the Item Library are closely correlated with the print edition of the manual, making it easier than ever to create homework assignments that are aligned with your lab activities. Continuing to set the standard for the 2-semester A&P laboratory course, the lab manual complies with the illustration and presentation style of the best-selling Marieb/Hoehn Human Anatomy & Physiology text, but can accompany any A&P textbook. Intended for use with any A&P textbook, this best-selling laboratory manual features a wide variety of exercises and activities designed to meet the needs of any 2-semester anatomy & physiology laboratory course. Known for its thorough, clearly-written exercises, full-color art, and tear-out review sheets, this lab manual gives you a hands-on laboratory experience. This lab manual is available in four versions: Cat, Main, Pig, and Rat. This package contains: Human Anatomy & Physiology Laboratory Manual, Rat Version For the two-semester A&P lab course. Practical, active learning exercises with a visual approach Visual Anatomy & Physiology Lab Manual (Stephen Sarikas) brings all of the strengths of the revolutionary Visual Anatomy & Physiology textbook (Martini/Ober/Nath/Bartholomew/Petti) to the lab. The 2nd Edition builds upon the visual approach and modular organization with new features to better prepare you for lab, maximize your learning, and reinforce important concepts. With an emphasis on clear, easy to follow figures (from the Martini Visual A&P text), frequent practice, and helping you make connections, the manual provides you with the powerful tools you need to excel. The two-page lab activity modules seamlessly integrate text and visuals to guide you through lab activities—with no page flipping. Lab practice consists of hands-on activities and assignable content in Mastering™ A&P, including new pre-lab quizzes, Review Sheets, and virtual lab study tools. Also available with Mastering A&P Mastering™ A&P is an online homework, tutorial, and assessment program designed to engage students and improve results. Instructors ensure that students arrive ready to learn in lab by assigning content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through assignments that provide hints and answer-specific feedback. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. Note: You are purchasing a standalone product; Mastering™ A&P does not come packaged with this content. Students, if interested in purchasing this title with Mastering A&P, ask your instructor for the correct package ISBN and Course ID.
