Since the 1960s, Martin Luther King, Jr., has personified black leadership with his use of direct action protests against white authority. A century ago, in the era of Jim Crow, Booker T. Washington pursued a different strategy to lift his people. In this compelling biography, Norrell reveals how conditions in the segregated South led Washington to call for a less contentious path to freedom and equality. He urged black people to acquire economic independence and to develop the moral character that would ultimately gain them full citizenship. Although widely accepted as the most realistic way to integrate blacks into American life during his time, Washington's strategy has been disparaged since the 1960s. The first full-length biography of Booker T. in a generation, *Up from History* recreates the broad contexts in which Washington worked: He struggled against white bigots who hated his economic ambitions for blacks, African-American intellectuals like W. E. B. Du Bois who resented his huge influence, and such inconstant allies as Theodore Roosevelt. Norrell details the positive power of Washington's vision, one that invoked hope and optimism to overcome past exploitation and present discrimination. Indeed, his ideas have since inspired peoples across the Third World that there are many ways to struggle for equality and justice. *Up from History* reinstates this extraordinary historical figure to the pantheon of black leaders, illuminating not only his mission and achievement but also, poignantly, the man himself. Examines life as a Chinese immigrant in 1850s San Francisco, and describes the tradition, preparation, and excitement of the Chinese New Year. It was Marva Collins' attitude that made children learn. It was her constant "You can do it," that convinced her students there wasn't anything they could not do. This independent minded teacher's drive, courage and dedication helped her children reach their full learning potential. Each chapter is individually summarized and analyzed, and has study questions and answers. In the 1950s professional historians claiming to specialize in tropical Africa were no more than a handful. The teaching of world history was confined to high school courses, and even those focused on European history. Philip Curtin developed a sound methodology for teaching world history and, always a controversial figure, revived the study of the history of the Atlantic slave trade. His career stands as an example of the kind of dissatisfaction and struggle that brought about a sea change in higher education. Curtin founded African Studies and the Program in Comparative World History at Wisconsin and Johns Hopkins universities, programs that produced many of the most influential Africanists from the 1950s into the 1990s. Written with economy and telling detail, *On the Fringes of History* follows Curtin from his beginnings in West Virginia in the 1920s. This memoir, beautifully illustrated with Curtin's photographs, tracks the emergence of American interest and engagement with the wider world and writes an important chapter in the history of twentieth-century academia. ABOUT THE AUTHOR---Philip D. Curtin is Herbert Baxter Adams Professor Emeritus, at Johns Hopkins University. His books include *The Atlantic Slave Trade: a Census and Cross Cultural Trade in World History*. When Alex Haley's book *Roots* was published by Doubleday in 1976 it became an immediate bestseller. The television series, broadcast by ABC in 1977, became the most popular miniseries of all time, captivating over a hundred million Americans. For the first time, Americans saw slavery as an integral part of the nation's history. With a remake of the series in 2016 by A&E Networks, *Roots* has again entered the national conversation. In *Making 'Roots'*, Matthew F. Delmont looks at the importance, contradictions, and limitations of mass culture and examines how *Roots* pushed the boundaries of history.

Delmont investigates the decisions that led Alex Haley, Doubleday, and ABC to invest in the story of Kunta Kinte, uncovering how Haley's original, modest book proposal developed into an unprecedented cultural phenomenon. In 1977, following the airing of the mega hit television mini-series *Roots*, its author, Alex Haley, became America's newest "folk hero." His book was on the *Times'* Best Seller's list for months, and won the Pulitzer Prize. His story had captivated a nation and then the world. From Idaho to Israel, it seemed everyone was caught-up in "Rootsmania." Alex Haley, the ghostwriter behind *The Autobiography of Malcolm X*, was on his way to becoming the most successful African American author in the history of publishing until it all fell apart. What happened? Based on interviews of Haley's contemporaries, personal correspondence, legal documents, newspaper accounts, Adam Henig investigates the unraveling of one of America's most successful yet enigmatic authors. PRAISE "Henig recounts the highs and lows of Haley's life with sympathy, addressing the critiques honestly." Publishers Weekly's Booklife "While this 52 page book may be his first, it represents a major literary achievement. This book may renew scholar and the general public's interest in *Roots* once again." - Nvasekie Konneh, Black Star News and author of *The Land of My Father's Birth* "Adam Henig has created a gem... A must read for anyone interested in the interplay of politics, race and mixed blessings of fame and fortune that produced the contradictory legacy of a onetime icon." - Terry P. Wilson, Professor Emeritus of Ethnic Studies, UC Berkeley Describes the experiences of the Little Rock Nine, the first black students to begin the integration of schools in Arkansas in 1957. Tracing his family history on his father's side, the author of *Roots* begins with his great-great-grandfather, James Jackson, Sr., a white plantation owner. (Biography). *The Autobiography of Malcolm X* was intended to be a true autobiography, with the name of Alex Haley appearing not at all or as a ghost writer or as a mere contributor or assistant. However, with the assassination of Malcolm X having occurred in Harlem in New York City on February 21, 1965 just before this book could be published, it became necessary to reveal the important role of Alex Haley in creating this book. A definitive biography of the African-American author and scholar describes DuBois's formative years, the evolution of his philosophy, and his roles as a founder of the NAACP and architect of the American civil-rights movement Traces the author's experiences as a first-generation African American raised in the Northern ghettos of Harlem in the mid-20th century, an upbringing marked by violence, drugs and devastating urban disadvantages. "Based on interviews of Haley's contemporaries, personal correspondence, legal documents, [and] newspaper accounts, Adam Henig investigates the unraveling of one of America's most successful yet enigmatic authors"--Page 4 of cover. From the widow and collaborator of Alex Haley, award-winning author of *Roots*, comes a new American epic from the Civil War. *The Treason of Mary Louvestre* is based on the true story of a seamstress slave from the Confederate town of Norfolk, Virginia. When her owner gets involved with modifications to the ironclad CSS Virginia, Mary copies the plans and sets out to commit treason against the South. Facing certain death as a spy if caught, she treks two hundred miles during the bitter winter of 1862 to reach the office of Union Secretary of the Navy Gideon Welles, where she hands over the plans. Mary's act of bravery is ably told by Haley, using a rich narrative and characters drawn from that pinnacle era of American history. First there was *Roots*, now there is *The Treason of Mary Louvestre*. The Black leader discusses his political philosophy and reveals details of his life, shedding light on the ideas that enabled him to gain the allegiance of a still growing percentage of the Black population This "bold...extraordinary...blockbuster..." (Newsweek magazine) begins with a birth in an African village in 1750, and ends two centuries later at a funeral in Arkansas. And in that time span, an unforgettable cast of men, women, and children come to life, many of them based on the people from Alex Haley's own family tree. When Alex Haley was a boy growing up in Tennessee, his grandmother used to tell him stories about their family, stories that went way back to a man she called "the African" who was taken aboard a slave ship bound for Colonial America. As an adult, Alex Haley spent twelve years searching for documentation that might authenticate what his grandmother had told him. In an astonishing feat of genealogical detective work, he discovered the name of "the African"--Kunta Kinte, as well as the exact location of the village in West Africa from where he was abducted in 1767. While Haley created certain unknown details of his family history, *ROOTS* is definitely based on the facts of his ancestry, and the six generations of people--slaves and freedmen, farmers and lawyers, an architect, teacher--and one acclaimed author--descended from Kunte Kinte. But with this book,

Haley did more than recapture the history of his own family. He popularized genealogy for people of all races and colors; and in so doing, wrote one of the most important and beloved books of all time, a true Modern Classic. Forced to raise her family by herself after her husband is killed by white landholders, Mama Flora watches her daughter Ruthana travel to Africa in search of her soul, while her son Willie's children seek solace in drugs and the Black Power movement. This book functions the same way: it gives dozens of different contributors space to

share what New Jersey looks like to them. Like Tuesdays with Morrie, in which Mitch Albom gleans wisdom from his mentor, Finding the Good is the story of Fred Montgomery and his influence on Lucas Johnson, a young reporter who learns of the transforming power of faith and love. Here is a powerful story of a 20th century slave who rose to the rank of mayor and the young man whose life he touched. Fred Montgomery, the son of sharecroppers in west Tennessee, and boyhood friend of Alex Haley, grew up in poverty, but had a faith and confidence instilled in him by his parents. Always at the mercy of white people, Fred worked hard and acquired his own farm in spite of opposition from his white neighbors. After losing two of his sons in separate drowning accidents, Fred tried twice to commit suicide. Bitter from years of frustration brought upon him by whites, Fred's attitude was changed by the sympathy and love shown to him by his neighbors, white and black alike. In 1988 he proved that faith and love can prevail by becoming the first black mayor of the once strongly segregated Henning, Tennessee. While telling this story, the author shows glimpses of his own life, in which many of his relatives, including his own father, succumbed to the lure of alcohol and drugs. Lucas Johnson lost all hope. He had no faith; he had no love. "Years have passed," he concludes, "since I first met Fred Montgomery. . . . I'm a better person because of him. His life . . . gave me a credible blueprint on how to deal with life's problems and even grow stronger from them." This is a very special novel that sparkles with the same memorable writing that made ROOTS an American classic. This is the story of Fletcher Randall, a nineteen-year-old from North Carolina whose politically powerful father is a plantation owner, and, of course, a slave owner. The time is 1855, and all Fletcher Randall knows and believes about slavery he's learned from his father. But Fletcher goes to school up North, and one or two of his Princeton classmates talk about how wrong slavery is until Fletcher begins to think for himself --and he becomes a traitor to his background, to his family, by conspiring to aid in a mass escape of slaves on the Underground Railroad. His partner in this plan is a black slave by the name of Harpin' John, a man who plays the harmonica so sweetly it could make a grown man cry. Christmas Eve is the secret date set for the escape. How these two men of such incredibly opposing backgrounds join together to achieve the goal of freedom makes A Different Kind of Christmas soar with unforgettable inspiration. This is a timeless tale of spiritual regeneration, moral courage, and powerful humanness, meaningful and memorable to readers of all faiths and all ages. Identifying Roots presents a cultural history of Alex Haley's Roots, examining the strategy and tactics Haley employed in developing a family origin story into an acclaimed national history. More than an investigation into Alex Haley's legacy, Identifying Roots unearths the politics of beginnings and belongings. While we all come from somewhere, this book examines the terms on which our roots can work as a tradition to embrace rather than a past to leave behind. And it investigates why some of the texts we read also seem to read us back. Identifying Roots invites readers to reimagine the way we tell stories. A provocative study that draws upon Black studies, the history of religions, and anthropology, this book underscores the social drama and dynamics that define our scriptures. Nimbly moving between the stories of Alex Haley, his characters, and the world that received them, Newton reminds us that our roots are stories of consequence. A rare, lucidly composed screenplay from one of America's greatest writers, based on the bestselling classic The Autobiography of Malcolm X. The Times Literary Supplement praises "the depth and sincerity of Baldwin's admiration for Malcolm X." Son of a Baptist minister; New York City hustler; honor student; convicted criminal; powerful minister in the Nation of Islam; father and husband: Malcolm X transformed himself, time and again, in order to become one of the most feared, loved, and undeniably charismatic leaders of twentieth-century America. No one better represents the tumultuous times of his generation, and there is no one better to capture him and his milieu than James Baldwin. With spare, elegant, yet forceful dialogue and fresh, precise camera directions, Baldwin breathes cinematic life into this controversial and important figure, offering a new look at a man who changed himself in order to change the country. Seminar paper from the year 2000 in the subject American Studies - Literature, grade: 2 (B), Ernst Moritz Arndt University of Greifswald (Anglistics/ American Studies), course: Voyage Through Death - Representing the Transatlantic Slave Trade, 6 entries in the bibliography, language: English, abstract: In this work about the book Roots by Alex HALEY the author will show that the book Roots is not non-fictional, like it is said on the cover of the book (chapter 3). The analysis of dialogues and characteristics of persons in the book will prove it. For the task was to prove the fictionality of the

book in comparison to the representation of the characters in the film, these two means of style of fictionality were chosen: dialogue and representation of characters. The author did actually not compare with the film because it was not clearly visible if the directors of the film were black or white, and so the analysis could have led in a wrong way. About the importance of the race will be said more in the analysis. One important point for proving the fictionality comes from Alex HALEY himself in chapter 120: "In the years of the writing, I have also spoken before many audiences of how Roots came to be, naturally now and then someone asks, 'How much of Roots is fact and how much is fiction?' To the best of my knowledge and of my effort, every lineage statement within Roots is from either my African or my American families carefully preserved oral history, much of which I have been conventionally to corroborate with documents.(...) Since I wasn't yet around when most of the story occurred, by far most of the dialogue and most of the incidents are of necessity a novelized amalgam of what I know took place together with what my researching led me to plausibly feel took place."1 Further on, the work will tell about Alex HALEY himself (chapter 1). For this part the Microsoft Encarta of the year 1996 was used. Further, the "Einführung in die Anglistik" from Sammlung Metzler2, the "Arbeitsbuch Literaturwissenschaft" from UTB3 and the "Einführung in die Literaturinterpretation" 4 build the scientific basis for this work. 1 HALEY, A.: Roots.
