This book, The Satin Man, is
the result of the six years that
followed, in which Mullins
continued Whiticker hunt for
the truth, and lobbied the

South Australian Police to open a coronial inquiry to the original investigation. It details shocking information about a potential suspect - a local man of wealth and position, known as 'The Satin Man' - and sheds incredible new light on this decades-old mystery. WINNER OF THE DASHIELL HAMMETT AWARD One night up in Montana, C.W. Sughrue sets his seedy bar's pricey jukebox in front of an oncoming freight train. When predictable results ensue, he needs to find a way to make some money and pay back the jukebox company. So even though Sughrue's officially retired from P.I. work, he picks up one small-time case involving some kidnapped fish. That fishy trail leads to a much bigger case involving a Texas politician's kidnapped wife, a valuable piece of pre-Columbian pottery, and a single mother who packs guns and stolen goods in her infant son's diaper bag. Annotation Can hardened criminals really reform? Making Good provides resounding proof that the answer is yes. This book

provides a fascinating narrative analysis of the lives of repeat offenders who, by all statistical measures, should have continued on the criminal path but instead have created lives of productivity and purpose. This examination of the phenomenology of "making good" includes an encyclopedic review of the literature on personal reform as well as a practical guide to the use of narratives in offender counseling and rehabilitation. The inside story of Hugo Chavez's rule and complex legacy Few leaders in our time have been as divisive and enigmatic as the late Hugo Chavez. In Comandante, acclaimed journalist Rory Carroll tells the inside story of Chavez's life, his time as Venezuela's president, and his legacy. Based on interviews with ministers, aides, courtiers, and citizens, this intimate piece of reportage chronicles a unique experiment in power that veers among enlightenment, tyranny, comedy, and farce. Carroll also investigates the almost

religious devotion of millions of Venezuelans who regarded Chavez as a savior and the loathing of those who branded him as a dictator. In beautiful prose that blends the lyricism and strangeness of magical realism with the brutal, ugly truth of authoritarianism, Comandante offers a cautionary tale for our times. In this unprecedented and chilling monologue, a repentant Mexican hitman tells the unvarnished truth about the war on drugs and reveals why the violence that now defines the American-Mexican border will only worsen. "Gato's head snapped back... We could make out the shots of several 9mms, a couple of 38s and one or two 45s. I hurled myself through the doorway and into the room. I didn't look back." Caught in an Ecuador hotel room with 8kg of cocaine, Pieter Tritton was no mule or dupe. He had planned and organized everything. The consequence: a 12-year sentence inside one of the world's deadliest prison systems, where gun fights,

executions and riots are a part of everyday life. As a Brit banged up abroad, Pieter had to learn how to survive - and fast - because one wrong move would mean death. This is the insider account of what it's like to live in a place worse than hell and come out a changed man on the other side. "Gato's head snapped back... They were sentenced to life imprisonment in Bangkok's notorious Bangkok Hilton. For Warren Fellows, it was the beginning of twelve years of hell. The *Damage Done* takes you behind the bars of a Bangkok prison. A place where sewer rats and cockroaches are the only nutritious food, where autocratic prison guards giggle as they deliver pulverising blows and where the worst punishment by far is the khun deo - solitary confinement, Thai style. Brutally honest and repentant of his initial crime, Warren talks about the decade of his life he lost in leg irons. *The Damage Done* is a brave and compelling book that poses harrowing questions on the nature of justice. 'Not a book for the fainthearted...A gut-wrenching confessional of endless days and nights in purgatory.' HERALD SUN

'Exceptionally readable' THE AUSTRALIAN 'It won't happen to me. That's what I thought when I got on the plane to Venezuela. But it did - I got caught.' Caught smuggling half a million euros' worth of cocaine, Paul Keany was sexually assaulted by Venezuelan anti-drugs officers before being sentenced to eight years in the notorious Los Teques prison outside Caracas. There he was plunged into a nightmarish world of coke-fuelled killings, gun battles, stabbings, extortion and forced hunger strikes until finally, just over two years into his sentence, he gained early parole and embarked on a daring escape from South America . . . Aided by his extensive prison diaries, Keany reveals the true horror of life inside Los Teques: a shocking underworld behind bars where inmates pay protection money to stay alive, prostitutes do the rounds and vast amounts of cocaine are smuggled in for cell-block bosses to sell on to prisoners for huge profits. *The Cocaine Diaries* is a

remarkable story, told by Keany with honesty, courage and even humour, despite knowing that every day behind bars might have been his last. A convicted murderer and award-winning prison activist currently serving a life sentence describes how he transformed from a violent and drug-addicted criminal to a philosophy student, Buddhist, and reformer, in a personal account that also relates his experiences of becoming a husband and father.

Transnational organized crime interferes with the everyday lives of more and more people - and represents a serious threat to democracy. By now, organized crime has become an inherent feature of economic globalization, and the fine line between the legal and illegal operation of business networks is blurred. Additionally, few experts could claim to have comprehensive knowledge and understanding of the laws and regulations governing the international flow of trade, and hence of the borderline towards criminal transactions.

This book offers contributions from 12 countries around the world authored by 25 experts from a wide range of academic disciplines, representatives from civil society organizations and private industry, journalists, as well as activists. Recognizing the complexity of the issue, this publication provides a cross cultural and multi-disciplinary analysis of transnational organized crime including a historical approach from different regional and cultural contexts. Written in collaboration with New York Times bestselling author Peter Golenbock, Larry Lawton's true-life story is a Hollywood producer's dream. Gangster Redemption tracks Larry's life growing up in the Bronx, his connection to organized crime, and how he went on to steal over 15 million dollars in jewels, ultimately landing himself in one of America's most brutal

maximum-security prisons where he was exposed to unbelievable torture. Through reading this book, readers will discover: a vivid account of Larry's crimes and how he managed to evade law enforcement and the FBI for nearly six years a secret life of corruption the truth about prison life, what is lost, how to avoid and dissolve bad associations, and how to turn ones life around how Larry developed the #1 program in the country designed to steer teens away from a life of crime Lawton's Reality Check Program is nationally recognized and used by judges, law enforcement, government officials, attorneys, and parents all over the country. It has kept thousands of teens and young adults from going to prison. His success rate is incredible and well documented. So is Larry Lawton's story. NAACP Image Award nominee for Outstanding Biography/Autobiography In her own words, Cyntoia Brown-Long shares the riveting and redemptive story of how she

changed her life for the better while in prison, finding hope through faith after a traumatic adolescence of drug addiction, rape, and sex trafficking led to a murder conviction.

"Those...years in prison hadn't just turned me into woman.

They transformed me. The girl who desperately wanted to belong, who felt powerless, who clawed, and scratched her way out of every corner she was backed into, was gone." At the age of sixteen, Cyntoia Brown, a survivor of human trafficking, was arrested for killing a man who had picked her up for sex. Two years later, she was sentenced to life in prison. Brown reflects on the isolation, low self-esteem, and sense of alienation that drove her straight into the hands of a predator. Once in prison, she attempts to build a positive path and honor the values her beloved adoptive mother, Ellenette, taught her, but Cyntoia succumbs to harmful influences that drive her to a cycle of progress and setbacks. Then, a fateful meeting with a prison educator turned mentor

offers Cyntoia the opportunity to make the pivotal decision to strive for a better future, even if she's never freed. In these pages, Cyntoia shares the details of her transformation, including a profound encounter with God, an unlikely romance, an unprecedented outpouring of support from social media advocates and A-list celebrities, and her release from prison. A coming-of-age memoir set against the shocking backdrop of a life behind bars, *Free Cyntoia* takes you on a spiritual journey as Cyntoia struggles to overcome a lifetime of feeling ostracized and abandoned by society. For the first time, ex-convict John Lee Brook subjects the Aryan Brotherhood to a devastating exposé, revealing how the notorious white supremacist prison gang has become perhaps the most powerful criminal organization in America, an achievement much more remarkable considering that the majority of its members remain behind bars, and its infamous Commission—the folkloric threesome,

Thomas 'Terrible Tom' Silverstein, Tyler 'the Hulk' Bingham and Barry 'the Baron' Mills—are kept in maximum-security solitary confinement, as the US government makes an open effort to subdue the organization by any means necessary. Despite these efforts, the Aryan Brotherhood continues to thrive, and *Blood In, Blood Out* demonstrates how a combination of Machiavelli, Nietzsche, meditation, secret codes, brutal violence and sheer will enable its buried puppet masters to continue to tug at the strings of an organization at the forefront of the black market trade in drugs, arms and money laundering. In *Blood In, Blood Out*, John Lee Brook provides both an extensive overview of the Aryan Brotherhood and a thrilling look at its untold recent history. ONE OF THE BEST BOOKS OF THE YEAR, *The Economist* and *The Financial Times* "Harrowing" true stories from two years of immersion reporting on the migrant trail from Chiapas to Arizona—an "honorable

successor to enduring works like George Orwell's *The Road to Wigan Pier*" (New York Times) One day a few years ago, 300 migrants were kidnapped between the remote desert towns of Altar, Mexico, and Sasabe, Arizona. A local priest got 120 released, many with broken ankles and other marks of abuse, but the rest vanished. Óscar Martínez, a young writer from El Salvador, was in Altar soon after the abduction, and his account of the migrant disappearances is only one of the harrowing stories he garnered from two years spent traveling up and down the migrant trail from Central America and across the US border. More than a quarter of a million Central Americans make this increasingly dangerous journey each year, and each year as many as 20,000 of them are kidnapped. Martínez writes in powerful, unforgettable prose about clinging to the tops of freight trains; finding respite, work and hardship in shelters and brothels; and riding shotgun with the border patrol.

Illustrated with stunning full-color photographs, *The Beast* is the first book to shed light on the harsh new reality of the migrant trail in the age of the narcotraficantes. "The US government has deported people to face abuse and even death in El Salvador. The US is not solely responsible--Salvadoran gangs who prey on deportees and Salvadoran authorities who harm deportees or who do little or nothing to protect them bear direct responsibility--but in many cases the US is putting Salvadorans in harm's way in circumstances where it knows or should know that harm is likely."--Publisher website, viewed February 14, 2020. From the New York Times bestselling author, here is the first novel in the explosive Power of the Dog series—an action-filled look at the drug trade that takes you deep inside a world riddled with corruption, betrayal, and

bloody revenge. Book One of the Power of the Dog Series Set about ten years prior to The Cartel, this gritty novel introduces a brilliant cast of characters. Art Keller is an obsessive DEA agent. The Barrera brothers are heirs to a drug empire. Nora Hayden is a jaded teenager who becomes a high-class hooker. Father Parada is a powerful and incorruptible Catholic priest. Callan is an Irish kid from Hell's kitchen who grows up to be a merciless hit man. And they are all trapped in the world of the Mexican drug Federación. From the streets of New York City to Mexico City and Tijuana to the jungles of Central America, this is the war on drugs like you've never seen it. This volume presents an interdisciplinary analysis of the practice of disappearances in Mexico, from the period of the so-called 'dirty war' to the current crisis of disappearances associated with the country's 'war on drugs', during which more than 80,000 people have disappeared. The volume brings together

contributions by distinguished scholars from Mexico, Argentina and Europe, who focus their chapters on four broad axes of enquiry. In Part I, chapters examine the phenomenon of disappearances in its historical and present-day forms, and the struggles for memory around the disappeared in Mexico with reference to Argentina. Part II addresses the political dimensions of disappearances, focusing on the specificities that this practice acquires in the context of the counterinsurgency struggle of the 1970s and the so-called 'war on drugs'. The third section situates the issue within the framework of human rights law by examining the conceptual and legal aspects of disappearances. The final chapters explore the social movement of the relatives of the disappeared, showing how their search for disappeared loved ones involves bodily and affective experiences as well as knowledge production. The volume thus aims to further our understanding of the crisis of

disappearances in Mexico without, however, losing sight of the historic origins of the phenomenon. The United States has diplomatic relations with 194 independent nations. Of these, none is more important to America than Mexico in terms of trade, investment, tourism, natural resources, migration, energy, and security. In recent years, narco-violence has afflicted Mexico with more than 50,000 drug-related murders since 2007 and some 26,000 men, women, and children missing. President Enrique Peña Nieto has tried to divert national attention from the bloodshed through reforms in energy, education, anti-hunger, health-care, and other areas. Even though the death rate has declined since the chief executive took office on December 1, 2012, other crimes continue to plague his nation. Members of the business community report continual extortion demands; the national oil company PEMEX suffers widespread theft of oil, gas, explosives, and

solvents (with which to prepare methamphetamines); hundreds of Central American migrants have shown up in mass graves; and the public identifies the police with corruption and villainy. Washington policymakers, who overwhelmingly concentrate on Asia and the Mideast, would be well-advised to focus on the acute dangers that lie principally below the Rio Grande, but whose deadly avatars are spilling into our nation. After getting arrested at a Venezuelan airport with a suitcase of cocaine, Natalie was clueless about the danger she was facing. Sentenced to 10 years, she arrived at a prison with armed men on the roof, whom she mistakenly believed were the guards, only to find out they were homicidal gang members. Immediately, she was plunged into a world of unimaginable horror and escalating violence, where murder, rape and gang warfare were carried out with the complicity of corrupt guards. Male prisoners often entered the females' housing area,

bringing gunfire with them and leaving corpses behind. After 4.5 years, Natalie risked everything to escape and flee through Colombia, with the help of a guard who had fallen deeply in love with her. Bestselling writer and organised-crime expert Keith Moor takes us behind the headlines of the world's biggest seizure of ecstasy to expose a sophisticated mafia network in Australia. In 2007, Melbourne customs officials intercepted 15 million ecstasy tablets hidden in 3000 tomato tins arriving from Naples, Italy - the largest haul of ecstasy in the world. The seized pills had a street value of \$440 million. After getting a lucky break from the actions of a diligent customs officer, the Australian Federal Police swooped on the traffickers. As they brought in the suspects, the powerful Calabrian mafia was exposed as being at the heart of it all. Drawing on years of research and never-before-revealed detail, Busted details this extraordinary case - one of the largest AFP operations ever -

and how it fits into the murky history of Australian organised crime. From the Walkley Award-winning author of *Crims in Grass Castles*, this is a fascinating and powerful account of one of the biggest crimes, and many of the worst criminals, our society has seen. Klong Prem prison, Thailand. The "Bangkok Hilton", where 600 foreigners among the 12,000 inmates of this walled prison city also wait and rot. Among the tragic, ruthless and forgotten, one man resolves to do what no other has done: escape. This is the true story of drug smuggler David McMillan's perilous break-out from Asia's most notorious prison. From his arrest at Don Muang airport, to awaiting trial inside Klong Prem, he provides an insight into the lives of the British, Australian, American and other Western prisoners as they are destroyed by disease, neglect and despair. Death is their only way out. Two weeks before a near-certain death sentence McMillan escapes, never to be seen in Thailand again. Hell in Barbados is the

powerful true story of a drug-addicted smuggler who found his salvation in the unlikelyst of places. Told with disarming honesty, the book propels the reader into the mind of an addict and shows us the depths of degradation one man sunk to before finding the inner strength to save himself. Terry Donaldson met with success early in life but his struggle with addiction soon became an all-out war. His Jekyll and Hyde lifestyle - TV presenter by day, whilst he scoured the streets of London in search of drugs and prostitutes by night - caused him to lose everything. Facing financial ruin, he agreed to smuggle drugs from Barbados, but was caught and sent to one of the world's worst prisons, where he remained for over 3 years. Honest and disturbing, *Hell in Barbados* is the true story of how Donaldson witnessed stabbings, beatings, shootings and a full scale riot as the prison went up in flames. In this extraordinary book, he describes the true horror of prison life in the Caribbean, the depravity that

brought him there, and the years of brutality he was forced to endure. Sandra Gregory seemed to have the perfect life in Bangkok - until illness, unemployment and political unrest turned it into a nightmare. Desperate to get home by any means possible, she agreed to smuggle an addict's personal supply of heroin. She didn't even make it onto the plane. In this remarkably candid memoir, Sandra Gregory tells the full story of the events leading up to her arrest, the horrific conditions in Lard Yao prison, her trial in a language she didn't understand and how it feels to be sentenced to death. Sandra finally resumed her journey home some four and a half years later, when she was transferred to the British prison system and had to adapt to a new, yet equally harsh, regime. Following relentless campaigning by her parents - who refused to forget they had a daughter - she was pardoned by the King of Thailand and released in 2000. Forget You Had a

Daughter is the extraordinary story of an ordinary British woman who made a mistake that changed the rest of her life. 8. Challenging the state.
Latin America is one of the world's most violent regions, at home and on the streets, with a homicide rate more than twice the world average. Domestic violence is also widespread and closely linked to societal violence: children who experience or witness chronic abuse are more likely to behave violently as adults. In *Too Close to Home*, international authorities ranging from psychologists and doctors to economists and communication experts offer insights and strategies on this serious public policy concern. *Unforgiving Destiny* follows the true story of the 37-year pursuit by authorities on five continents to imprison and

execute David McMillan as he travelled as an independent smuggler. Readers have called this sprawling yet fast-paced saga, "The benchmark for true-crime writing," and includes new details of the notorious Bangkok escape. Dogged by an obsessed DEA agent, he evades the death penalty in Thailand by escaping prison, only to be 'disappeared' in Pakistan jails after crossing the Afghan border. After every downfall, McMillan rebuilds his life and network only to find the same agency people arranging capture by any means. In this private history, readers are taken to the streets of New York City and Colombia, then through the war-zones of Afghanistan and torture cells in Karachi. At the same time, McMillan balances a double life of a London gentleman with the women in his life oblivious to his true nature. Look to the author's page to hear readings, video, background, film links and see the faces behind this extraordinary journey. In one reviewer's words, "*Unforgiving Destiny* is a mini-masterpiece.

Outstanding." "Imagine losing everything you care about. Home, family, freedom, every object that built your life," writes McMillan. "Then locked in some of the world's worst prisons. Even if you survive, there are little deaths feeding on your guts - when that repeats five times over thirty years, those little deaths drain your soul." *Unforgiving Destiny - the Relentless Pursuit of a Black Marketeer* reveals the ultimate cost of survival in the darkest of dark worlds. *Unforgiving Destiny* includes an integrated chapter on the Bangkok-prison breakout and answers many of the questions raised by the over 100,000 readers of *'Escape: The True Story of the Only Westerner Ever to Break Out of Thailand's Bangkok Hilton'*. This new and most personal biography reveals the fears, ambitions and motivations of a man both driven and pursued, surviving the unthinkable, and the effects upon those he loves. McMillan is the last survivor of the small band of independent smugglers, and as such has

now told much that could not have been told before. Only in 2016 was he free to speak, after the Thai government abandoned all attempts to extradite him to again face a death penalty. Few other lives have been so extraordinary or more clearly told. Renowned thriller writer Stephen Leather, after reading *Escape*, wrote: 'David makes no excuses for his life as a professional drug smuggler and asks for no sympathy. While most of David's fellow prisoners gave up hope and accepted their fate, he decided from Day One that he had no alternative other than to do what no other Westerner had ever managed - to escape! David is a great writer...' *Unforgiving Destiny* raises the standard for fast-paced autobiographies of extraordinary people, written in a style that is heart-rending yet often humorous as McMillan sets ego aside and invites readers into his hidden domain. Told with gripping intensity, *It Would be Night in Caracas* chronicles one woman's desperate battle to

survive amid the dangerous, sometimes deadly, turbulence of modern Venezuela and the lengths she must go to secure her future. In Caracas, Venezuela, Adelaida Falcon stands over an open grave. Alone, except for harried undertakers, she buries her mother—the only family Adelaida has ever known. Numb with grief, Adelaida returns to the apartment they shared. Outside the window that she tapes shut every night—to prevent the tear gas raining down on protesters in the streets from seeping in—when looters masquerading as revolutionaries take over her apartment, Adelaida resists and is beaten up. It is the beginning of a fight for survival in a country that has disintegrated into violence and anarchy, where citizens are increasingly pitted against each other. But as fate would have it, Adelaida is given a gruesome choice that could secure her escape. Filled with riveting twists and turns, and told in a powerful, urgent voice, *It Would Be Night* in

Caracas is a chilling reminder of how quickly the world we know can crumble. It has been called the most dangerous gang in American history. In Los Angeles alone it is responsible for over 100 homicides per year. Although it has fewer than 300 members, it controls a 40,000-strong street army that is eager to advance its agenda. It waves the flag of the Black Hand and its business is murder. Although known on the streets for over fifty years, the Mexican Mafia has flown under the radar of public awareness and has flourished beneath a deep cover of secrecy. Members are forbidden even to acknowledge its existence. For the first time in its history, the Mexican Mafia is now getting the attention it has been striving to avoid. In this briskly written and thoroughly researched book, Tony Rafael looks at the birth and the blood-soaked growth of this criminal enterprise through the eyes of the victims, the dropouts, the cops and DAs on the front lines of the war against the Mexican

Mafia. The first book ever published on the subject, *Southern Soldiers* is a pioneering work that unveils the operations of this California prison gang and describes how it grew from a small clique of inmates into a transnational criminal organization. As the first prison gang ever to project its power beyond prison walls, the Mexican Mafia controls virtually every Hispanic neighborhood in Southern California and is rapidly expanding its influence into the entire Southwest, across the East Coast, and even into Canada. Riding a wave of unchecked immigration and seemingly beyond the reach of law enforcement, the Mexican Mafia is poised to become the *Cosa Nostra* of twenty-first-century America. Among members of the outlaw motorcycle clubs, Caesar Campbell is a legend. Former sergeant-at-arms and chief enforcer for the Comancheros, Caesar became the founding member and sergeant-at-arms of the Australian chapter of the

Bandidos. He epitomised bikie culture - unbeatable in a fight, brutal in the extreme, fearing no one and nothing, and loyal until death. This is Caesar's story, from his recruitment into the Comancheros, to the savage split within the club that led to the foundation of the *Bandidos* and the bloody massacre at Milperra that resulted from it. This was the massacre that saw the death of two of Caesar's brothers, and resulted in four bullet wounds and a lengthy jail term for him. Never before has someone so respected in the bikie gangs opened a window on to their world. The fact that Caesar has been able to do so is a testament to his ruthlessness, his fearlessness and his reputation in the bikie community. *Enforcer* is a unique and captivating true crime story that will shock you with its raw violence, its brutality and its insights into an outlaw world. This book is a collection of studies of drug policies in several Latin American countries. The chapters analyze the specific

histories of drug policies in each country, as well as related phenomena and case studies throughout the region. It presents conceptual reflections on the origins of prohibition and the “War on Drugs,” including the topic of human rights and cognitive freedom. Further, the collection reflects on the pioneering role of some Latin American countries in changing paradigms of international drug policy. Each case study provides an analysis of where each state is now in terms of policy reform within the context of its history and current socio-political circumstances. Concurrently, local movements, initiatives, and backlash against the reformist debate within the hemisphere are examined. The recent changes regarding the regulation of marijuana in the United States and their possible impact on Latin America are also addressed. This work is an important, up-to-date and well-researched reference for all who are interested in drug policy from a Latin American perspective.

Draws on the collective experiences and insights of many individuals, and in particular from the implementation of the WHO Multi-country Study on Women's Health and Domestic Violence against Women in over 10 countries. Twenty years ago, violence against women was not considered an issue worthy of international concern. Gradually, violence against women has come to be recognized as a legitimate human rights issue and as a significant threat to women's health and well-being. Now that international attention is focused on gender-based violence, methodologically rigorous research is needed to guide the formulation and implementation of effective interventions, policies, and prevention strategies. The manual has been developed in response to the growing need to improve the quality, quantity, and comparability of international data on physical and sexual abuse. It outlines some of the methodological and ethical challenges of

conducting research on violence against women and describes a range of innovative techniques that have been used to address these challenges. *A Prayer Before Dawn* is the true story of one man's fight to survive inside Klong Prem Prison, the notorious Bangkok Hilton. Billy Moore travelled to Thailand to escape a life of drug addiction and alcoholism. He managed to overcome his inner demons for a time but relapsed after trying ya ba - a highly-addictive form of methamphetamine. Moore's life quickly descended into chaos, drug dealing and violence until he was eventually arrested and imprisoned in Klong Prem, a place where life has no value. *A Prayer Before Dawn* is no ordinary prison memoir; it's the story of one man's struggle to survive in one of the world's toughest prisons. It's also a story of redemption in the most unlikely of places. Billy Moore was born in Liverpool, England. He has worked as a teacher, Muay Thai fighter and extra on film sets. Following

his release from prison in Thailand, he returned to Britain where he now lives with his family. He is now working as a motivational speaker and a drugs counsellor. Growing up on the Navajo Indian Reservation, David Crow and his siblings idolized their dad, a self-taught Cherokee who loved to tell his children about his World War II feats. But as time passed, David discovered the other side of Thurston Crow, the ex-con with his own code of ethics that justified cruelty, violence, lies--even murder. Intimidating David with beatings, Thurston coerced his son into doing his criminal bidding. David's mom, too mentally ill to care for her children, couldn't protect him. Through sheer determination, and with the help of a few angels along the way, David managed to get into college and achieve professional success. When he finally found the courage to refuse his father's criminal demands, he unwittingly triggered a plot of revenge that would force him into a deadly showdown with

Thurston Crow. David would have only twenty-four hours to outsmart his father--the brilliant, psychotic man who bragged that the three years he spent in the notorious San Quentin State Prison had been the easiest time of his life. Raw and palpable, *The Pale-Faced Lie* is an inspirational story about the power of forgiveness and the strength of the human spirit. When James Miles and his best friend Paul Loseby were caught smuggling ten kilos of cocaine out of Caracas, Venezuela, they couldn't deny their guilt. This title tells the true-life story of how two men endured untold savagery in the most appalling conditions. In 1993, Dominic Stevenson left a comfortable life with his girlfriend in Kyoto, Japan, to travel to China. His journey took him to some of the most inhospitable and dangerous places in the world, from the poppy fields of the Afghan-Pakistan border to the ancient trade routes of the Silk Road, before he was arrested for drug smuggling while boarding a boat from Shanghai to Japan.

After eight months on remand in a Chinese police lock-up, Stevenson was sentenced to two and a half years in one of the biggest prisons in the world, the Shanghai Municipal Prison aka 'The Monkey House'. There, he was imprisoned alongside just five westerners amongst five thousand Chinese criminals in a block for death row inmates and political prisoners, where the guards drank green tea and let the prison run itself. The experience led him to reflect on his previous life in Japan, India and Thailand, during which time he took on a varied array of jobs, including English teacher, karaoke-bar host, factory worker, busker, crystal seller and dope smuggler. From Afghan gun shops to Tibetan monasteries, Thai brothels and the stirrings of the rave culture in Goa, *Monkey House Blues* is a tale of discovery and rediscovery, of friendship and betrayal. The inhabitants of the urban margins are hardly ever heard in discussions about public safety. "[In Pimp], Iceberg Slim

breaks down some of the coldest, capitalist concepts I've ever heard in my life." —Dave Chappelle, from his Netflix special *The Bird Revelation*

Pimp sent shockwaves throughout the literary world when it published in 1969. Iceberg Slim's autobiographical novel offered readers a never-before-seen account of the sex trade, and an unforgettable look at the mores of Chicago's street life during the 1940s, 50s, and 60s. In the preface, Slim says it best, "In this book, I will take you, the reader, with me into the secret inner world of the pimp." An immersive experience unlike anything before it, *Pimp* would go on to sell millions of copies, with translations throughout the world. And it would have a profound impact upon generations of writers, entertainers, and filmmakers, making it the classic hustler's tale that never seems to go out of style.
