**Changing the Way You Think** Nov 08 2020 It was during an isolated tour of military duty that the author Sheldon Malone was led to compile these devotionals written over the years into a one-year devotional book designed to encourage readers to look at God's Word from a whole new perspective by changing the way they thought. It was not until he changed his thinking that he truly began to see the transforming power of God manifested in his life in tangible ways. This is precisely why we have to allow God to expand our territory and horizon by permitting Him to change the way we think through His Word. As you read each devotional, this author's prayer is that you will find strength and encouragement to allow God to propel you into higher heights and deeper depths in the things of the Kingdom. Biology Of Enlightenment Nov 28 2019 In this book we meet with the modern sage, U.G. Krishnamurti, and listen to his penetrating voice describing life and reality as it is. What is body and what is mind? Is there a soul? Is there a beyond, a God? What is enlightenment? Is there a life after death? Never before have these questions been tackled with such simplicity, candour and clarity. In these unpublished early conversations with friends (1967-71), U.G. discusses in detail his search for the truth and how he underwent radical biological changes in 1967. Preferring to call it the natural state over enlightenment, he insists that whatever transformation he has undergone is within the structure of the human body and not in the mind at all. It is the natural state of being that sages like the Buddha, Jesus and, in modern times, Sri Ramana, stepped into. And U.G. never tires of pointing out that 'this is the way you, stripped of the machinations of thought, are also functioning.'
