Poet and cartoonist Austin Kleon has discovered a new way to read between the lines. Armed with a daily newspaper and a permanent marker, he constructs through deconstruction—eliminating the words he doesn't need to create a new art form: Newspaper Blackout poetry. Highly original, Kleon's verse ranges from provocative to lighthearted, and from moving to hysterically funny, and undoubtedly entertaining. The latest creations in a long history of "found art," Newspaper Blackout will challenge you to find new meaning in the familiar and inspiration from the mundane. Newspaper Blackout contains original poems by Austin Kleon, as well as submissions from readers of Kleon's popular online blog and a handy appendix on how to create your own blackout poetry. Share in Dickinson's admiration of language, nature, and life and death, with The Selected Poems of Emily Dickinson. "The time you enjoy wasting is not wasted time." So said Bertrand Russell, and I agree. Creating blackout poems, the process of choosing words from a page of text and restructuring them into poetry, is a great way to turn those forced idle moments--wasted time--into instances of creativity. After a summer of travel, where delays weren't uncommon, I made a habit of bringing my blackout poetry kit along. Selecting the right words, adding playful illustrations, and coloring became therapeutic and relaxing while waiting in hotel lobbies, train stations, and airports. Instead of watching the clock, I focused on the page in front of me, letting the words, lines, and colors take me away. Distance Between is a compilation of blackout poems made possible by all kinds of unexpected opportunities. The world knows her as a porn star. . . but it's her way with words that will touch you again and again. Asa Akira's perceptive, funny, and straightforward writings on love, sex, death, marriage and celebrity come together in a surprising book of essays. Personally revealing as well as universal, Dirty Thirty marks the coming of age of a new literary star. "Bervin shows us ways in which we might open up pre- or over-determined uses of past structures without erasing them--making the poems all the more complex by their refusal to dislocate. Her Nets is context responsive and responsible, without the knot of lyric-envy and linguistic guilt of many contemporary poems that pillage the past for strangeness, or worse, for an energetic imagination that might impersonate the writer's. --Christine Hume, Aufgabe. Process note from Jen Bervin: "I stripped Shakespeare's sonnets bare to the 'nets' to make the space of the poems open, porous, possible--a divergent elsewhere. When we write poems, the history of poetry is with us, pre-inscribed in the white of the page; when we read or write poems, we do it with or against this palimpsest." Conventional product development focuses on the solution. Empathy is a mindset that focuses on people, helping you to understand their thinking patterns and perspectives. Practical Empathy will show you how to gather and compare these patterns to make better decisions, improve your strategy, and collaborate successfully. Lily has lots of worries. She's struggling to compete in her fell-running races and, even worse, every day her gran's Alzheimer's gets a little bit worse. But then she discovers her great-great-grandfather's diaries from the First World War. Could his incredible story of bravery help her reconnect with her gran and even give her the inspiration she needs to push through and win? When peace like a river is closer to crashing against rocks in the current, when our souls are filled with joy but also doubt and disappointment, when God is a bulwark never failing yet we are a sinking ship, we yearn for forgiveness. This blackout poetry collection reads between the lines of an old text, drawing out hope, bitterness, and relief. Navigate through these complex realities and enjoy the ride. In his New York Times bestseller Steal Like an Artist, Austin Kleon showed readers how to unlock their creativity by "stealing" from the community of other movers and shakers. Now, in an even more forward-thinking and necessary book, he shows how to take that critical next step on a creative journey—getting known. Show Your Work! is about why generosity trumps genius. It's about getting findable, about using the network instead of wasting time "networking." It's not self-promotion, it's self-discovery—let others into your process, then let them steal from you. Filled with illustrations, quotes, stories, and examples, Show Your Work! offers ten transformative rules for being open, generous, brave, productive. In chapters such as You Don't Have to Be a Genius;

Share Something Small Every Day; and Stick Around, Kleon creates a user's manual for embracing the communal nature of creativity— what he calls the “ecology of talent.” From broader life lessons about work (you can't find your voice if you don't use it) to the etiquette of sharing—and the dangers of oversharing—to the practicalities of Internet life (build a good domain name; give credit when credit is due), it's an inspiring manifesto for succeeding as any kind of artist or entrepreneur in the digital age. An exquisite art book of gentle and elegant found poetry. The gripping story of a dramatic eighteenth-century voyage of discovery from Naomi J. Williams In her wildly inventive debut novel, Naomi J. Williams reimagines the historical La Pérouse expedition, a voyage of exploration that left Brest in 1785 with two frigates, two hundred men, and overblown Enlightenment ideals and expectations, in a brave attempt to circumnavigate the globe for science and the glory of France. Deeply grounded in historical fact but refracted through a powerful imagination, Landfalls follows the exploits and heartbreaks not only of the men on the ships but also of the people affected by the voyage—natives and other Europeans the explorers encountered, loved ones left waiting at home, and those who survived and remembered the expedition later. Each chapter is told from a different point of view and is set in a different part of the world—ranging from London to Tenerife, Alaska to remote South Pacific islands and Siberia, and eventually back to France. The result is a beautifully written and absorbing tale of the high seas, scientific exploration, human tragedy, and the world on the cusp of the modern era. By turns elegiac, profound, and comic, Landfalls reinvents the maritime adventure novel for the twenty-first century. Fourteen short adventures featuring the Saint, dispensing justice with his own unique style. Edgar Allan Poe was one of the most original writers in the history of American letters, a genius who was tragically misunderstood in his lifetime. He was a seminal figure in the development of science fiction and the detective story, and exerted a great influence on Dostoyevsky, Arthur Conan Doyle, Jules Verne, and Charles Baudelaire, who championed him long before Poe was appreciated in his own country. Baudelaire's enthusiasm brought Poe a wide audience in Europe, and his writing came to have enormous importance for modern French literature. This edition includes his most well-known works—"The Raven," "The Pit and the Pendulum," "Annabel Lee," "The Fall of the House of Usher," "The Murders in the Rue Morgue"—as well as less-familiar stories, poems, and essays. 'Finding Light in the Darkness' is a collection of blackout poetry through a journey of depression, love, loss, life and starting over. A mixture of poetry and art made by taking any form of printed text and blacking out the unwanted words to create a poem or statement, it's a form of therapy that promotes overall well-being and mental health. Kay Ryan's recent appointment as the Library of Congress's sixteenth poet laureate is just the latest in an amazing array of accolades for this wonderfully accessible, widely loved poet. Salon has compared her poems to “Fabergé eggs, tiny, ingenious devices that inevitably conceal some hidden wonder.” The two hundred poems in Ryan's *The Best of It* offer a stunning retrospective of her work, as well as a swath of never-before-published poems of which are sure to appeal equally to longtime fans and general readers. Second edition of the popular book of prompts for writing poetry. Jimmy Burns is an expatriate American living in Mexico who has an uncommonly astute eye for the absurd little details that comprise your average American. For a time, Jimmy spent his days unearthing pre-Colombian artifacts. Now he makes a living doing small trucking jobs and helping out with the occasional missing person situation—whatever it takes to remain “the very picture of an American idler in Mexico, right down to the grass-green golfing trousers.†? But when Jimmy's laid-back lifestyle is seriously imposed upon by a ninety-pound stalker called Louise, a sudden wave of “hippies†? (led by a murderous ex-con guru) in search of psychic happenings, and a group of archaeologists who are unearthing (illegally) Mayan tombs, his simple South-of-the-Border existence faces a clear and present danger. A vital, engaging, and hugely enjoyable guide to poetry, from ancient times to the present, by one of our greatest champions of literature *The Times* and *Sunday Times*, Best Books of 2020 “[A] fizzing, exhilarating book.”—Sebastian Faulks, *Sunday Times* What is poetry? If music is sound organized in a particular way, poetry is a way of organizing language. It is language made special so that it will be remembered and valued. It does not always work—over the centuries countless thousands of poems have been forgotten. But this *Little History* is about some that have not. John Carey tells the stories behind the world's greatest poems, from the oldest surviving one written nearly four thousand years ago to those being written today. Carey looks at poets whose works shape our views of the world, such as Dante, Chaucer, Shakespeare, Whitman, and Yeats. He also looks at more recent poets, like Derek Walcott, Marianne Moore, and Maya Angelou, who have started to question what makes a poem “great” in the first place. For readers both young and old, this little history shines a light

for readers on the richness of the world's poems—and the elusive quality that makes them all the more enticing. Unlock your creativity. An inspiring guide to creativity in the digital age, *Steal Like an Artist* presents ten transformative principles that will help readers discover their artistic side and build a more creative life. Nothing is original, so embrace influence, school yourself through the work of others, remix and reimagine to discover your own path. Follow interests wherever they take you - what feels like a hobby may turn into you life's work. Forget the old cliché about writing what you know: instead, write the book you want to read, make the movie you want to watch. And finally, stay smart, stay out of debt, and risk being boring in the everyday world so that you have the space to be wild and daring in your imagination and your work..

*The Mess That We Made* explores the environmental impact of trash and plastic on the ocean and marine life, and it inspires kids to do their part to combat pollution. Simple, rhythmic wording builds to a crescendo ("This is the mess that we made. These are the fish that swim in the mess that we made.") and the vibrant digital artwork captures the disaster that is the Great Pacific Garbage Patch. Children can imagine themselves as one of the four multi-ethnic occupants of the little boat surrounded by swirling plastic in the middle of the ocean, witnessing the cycle of destruction and the harm it causes to plants, animals, and humans. The first half of the book portrays the growing magnitude of the issue, and the second half rallies children and adults to make the necessary changes to save our oceans. Facts about the Great Pacific Garbage Patch, ocean pollution, and how kids can help are included in the back matter. Can techniques traditionally thought to be outside the scope of literature, including word processing, databasing, identity ciphering, and intensive programming, inspire the reinvention of writing? The Internet and the digital environment present writers with new challenges and opportunities to reconceive creativity, authorship, and their relationship to language. Confronted with an unprecedented amount of texts and language, writers have the opportunity to move beyond the creation of new texts and manage, parse, appropriate, and reconstruct those that already exist. In addition to explaining his concept of uncreative writing, which is also the name of his popular course at the University of Pennsylvania, Goldsmith reads the work of writers who have taken up this challenge. Examining a wide range of texts and techniques, including the use of Google searches to create poetry, the appropriation of courtroom testimony, and the possibility of robo-poetics, Goldsmith joins this recent work to practices that date back to the early twentieth century. Writers and artists such as Walter Benjamin, Gertrude Stein, James Joyce, and Andy Warhol embodied an ethos in which the construction or conception of a text was just as important as the resultant text itself. By extending this tradition into the digital realm, uncreative writing offers new ways of thinking about identity and the making of meaning. You don't need to be a genius, you just need to be yourself. That's the message from Austin Kleon, a young writer and artist who knows that creativity is everywhere, creativity is for everyone. A manifesto for the digital age, *Steal Like an Artist* is a guide whose positive message, graphic look and illustrations, exercises, and examples will put readers directly in touch with their artistic side. When Mr. Kleon was asked to address college students in upstate New York, he shaped his speech around the ten things he wished someone had told him when he was starting out. The talk went viral, and its author dug deeper into his own ideas to create *Steal Like an Artist*, the book. The result is inspiring, hip, original, practical, and entertaining. And filled with new truths about creativity: Nothing is original, so embrace influence, collect ideas, and remix and re-imagine to discover your own path. Follow your interests wherever they take you. Stay smart, stay out of debt, and risk being boring—the creative you will need to make room to be wild and daring in your imagination. Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that "wasted" time differently. Unlike old media, the internet demands active engagement—and it's actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called "Wasting Time on the Internet", he nearly broke the internet. The *New Yorker*, the *Atlantic*, the *Washington Post*, *Slate*, *Vice*, *Time*, *CNN*, the *Telegraph*, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity. Goldsmith's ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In *Wasting Time on the Internet*, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we're "wasting time," we're actually creating a culture of collaboration. We're reading and writing more—and quite differently. And we're turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—*Wasting Time on the Internet* is the manifesto you didn't know you needed. Marjorie Perloff here explores this intriguing development in contemporary poetry: the embrace of "unoriginal" writing. Paradoxically, she argues, such citational and often constraint-based poetry is more accessible and, in a sense, "personal" than was the hermetic

poetry of the 1980's and 90's. -- He's outraged! He's not going to take it anymore! He's... not quite sure what to do next. Blackout poetry is a unique form of poetry popularized by the artist Austin Kleon in the book "Newspaper Blackout." Poets black out words on a newspaper page, while leaving some unmarked. The remaining words create a poem. See: YouTube: How To Make A Newspaper Blackout Poem This, by far, is the most insightful way of recording the major events of the Trump presidency. Scott Free. A finalist for the National Book Critics Circle Award, this memoir of one woman's later in life career change is “a smart, funny and compelling case for going after your heart's desires, no matter your age” (Essence). Following her retirement from Princeton University, celebrated historian Dr. Nell Irvin Painter surprised everyone in her life by returning to school—in her sixties—to earn a BFA and MFA in painting. In *Old in Art School*, she travels from her beloved Newark to the prestigious Rhode Island School of Design; finds meaning in the artists she loves, even as she comes to understand how they may be undervalued; and struggles with the unstable balance between the pursuit of art and the inevitable, sometimes painful demands of a life fully lived. How are women and artists seen and judged by their age, looks, and race? What does it mean when someone says, “You will never be an artist”? Who defines what an artist is and all that goes with such an identity, and how are these ideas tied to our shared conceptions of beauty, value, and difference? Bringing to bear incisive insights from two careers, Painter weaves a frank, funny, and often surprising tale of her move from academia to art in this "glorious achievement—bighearted and critical, insightful and entertaining. This book is a cup of courage for everyone who wants to change their lives" (Tayari Jones, author of *An American Marriage*). Poetry. Literary Nonfiction. Over the last three years, Atlanta-based artist John Carroll has been on a journey of sharing a piece of blackout poetry with his social media followers every day. *HIDDEN MESSAGES OF HOPE* is a retrospective collection of his blackout poetry, along with new essays on exploring life, love, and hope in everyday text. Originally published in the US, this cult book by John Carroll became a phenomenon, and is now republished with a new Introduction, in updated form, by British press Eyewear Publishing, for the whole world to enjoy. "Out with the old, in with the new." One day while decluttering my office, I began feeding old proof pages into the shredder with glee. But watching the metal teeth chew up my hard work had me wondering, was reducing my books into tatters a good idea? Or could I turn the pages into something new? Motivated by an online found poetry community, I recycled my proof copies of *Dealing with Blue* and

Burnout into blackout poems and doodle art. Selected words took on a new meaning and the whimsical line drawings created their own stories, which may require a stretch of the imagination. Let it stretch Sounds Complicated is a colorful compilation about a perplexing journey through love. In 1966 the artist Tom Phillips discovered *A Human Document* (1892), an obscure Victorian romance by W.H. Mallock, and set himself the task of altering every page, by painting, collage or cut-up techniques, to create an entirely new version. Some of Mallock's original text remains intact and through the illustrated pages the character of Bill Toge, Phillips's anti-hero, and his romantic plight emerges. First published in 1973, *A Humument* - as Phillips titled his altered book - quickly established itself as a cult classic. Since then, the artist has been working towards a complete revision of his original, adding new pages in successive editions. That process is now finished. This 50th anniversary edition presents, for the first time, an entirely new and complete version of *A Humument*. This edition includes a revised Introduction by the artist, reflecting on the last 50 years' work on this project, and 92 new illustrated pages. A Special Limited edition is also available: this presents a copy of the 50th anniversary edition in a clamshell box with a limited-edition print, signed by the artist. In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of "non-reading"-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to books, offering a whole new perspective on how we read and absorb them.
