This book constitutes the refereed proceedings of the 9th IFIP-TC6 Networking Conference, Networking 2010. Papers were solicited in three broad topic areas: applications and services, network technologies, and internet design. All papers were considered on their merits by a uni?ed Technical Program Committee (TPC); there was no attempt to enforce a quota among topic areas. We believe the resulting program is an excellent representation of the breadth of recent advances in networking research. This year, the conference received 101 full paper submissions from 23 countries?ve continents, reflecting a strong diversity in the networking community. Similarly, the 92 members of the TPC are from 21 countries and include a mix of academic, industry, and governmental affiliations. The TPC members, aided by some 50 external reviewers, provided a total of 470 reviews and follow-up discussions totaling more than 200 messages. The ?nal selections were made at a TPC meeting hosted by Columbia University in New York City, with both in-person and remote participation. In total, authors of accepted papers have academic and industry affiliations in 15 countries. We ?nally selected 24 papers for presentation during the conference technical sessions. A small number of papers were assigned a shepherd from the TPC to assist in paper revision. These statistics represent an acceptance rate of just under 24%, comparable to that of previous years. The TPC also identi?ed several papers that re?ect particularly promising early results; these papers were selected for presentation as work-in-progress papers and are identi?ed as such in the proceedings. AR 25-55 11/01/1997 THE DEPARTMENT OF THE ARMY FREEDOM OF INFORMATION ACT PROGRAM , Survival Ebooks This is the first attempt to bring together diverse scholars, using different lenses, to study South Africa's Border War. As a book, it is critical in approach, provides deeper reflection, and focuses specifically on the SADF experience of the war. The result is a more complex picture of the war's dynamics and its legacies. Although South Africa is a vastly different country today, the study of the Border War opens a range of questions, also relevant to contemporary deployments such as in Lesotho (1998) and the Central African Republic (2013). It includes the debate on participation in foreign conflicts; on the deployment, design and preparation of appropriate, modern armed forces and their use as foreign policy instruments in far-off theatres; on military planning; and, as the historical controversies regarding the battles at Cuito Cuanavale and Bangui illustrate, on the interface between foreign campaigning and domestic politics.
