Finding Hope in the Lived Experience of Psychosis Oct 26 2019 This book offers first-person accounts of the experience of psychosis from the inside and the outside, through the eyes of two doctors, one of whom has experienced psychosis and both of whom have worked for decades in the field of psychiatry. Underpinned by rigorous academic analysis using an evocative duo-ethnographic approach, the book explores the cultural and subcultural influences from childhood onwards – both traumatic and resilience-building – that have shaped their lives. Both authors reflect on strategies they

learned early in life for dealing with challenges, each managing to function at a high level while avoiding awareness of their vulnerability. They reflect on the potential dangers of using their expertise and position of power in psychiatry simply to diagnose mental illness and prescribe medication. The differences and similarities in the authors' stories provide a productive tension highlighting the complexities of this paradigm shift that is happening in psychiatry. Written in the form of two interacting memoirs, this book is of great interest to researchers, clinicians, and practicing psychologists, as well as a general audience with interest in psychosis.

Medical School from High School May 14 2021 This book is the most complete source on the nations medical school early admission programs. These programs allow informed and motivated students to apply directly to medical school while applying to colleges, all directly from high school. These programs are hidden gems that come in varying shapes and sizes, ranging from six to eight years, designed to attract bright students interested in becoming a physician. Their somewhat ambiguous nature is brought to light in detail. Their various titles, including BA/MD or BS/MD programs, fast-track medical programs, and medical scholar programs, all lend to the ambiguity, which is explained and categorized in a uniform format. This book provides

information on all aspects of the application process, including a Q&A session explaining frequently asked questions, the application process, SAT and GPA requirements, and interview advice. Your career choice is one of the most important decisions you can make. A career in medicine is extremely competitive but also highly intellectually, professionally, and personally satisfying. If seriously committed to a career in medicine, learn how you can take advantage of these unique programs and make the right decision early.

Cop to VC Aug 17 2021 The book is an account of the experiences and perspectives the author gained in his long and diverse career. It is written in two parts, the first part contains a first-hand account of his experience as a young man, in Pre-Partition India. Events leading to the holocaust, which were a result of the partition of India, and led to his migration to India, have also been mentioned. The excerpts also give an interesting perspective on the state of education, healthcare etc. in pre-independent India. The second part shares author's varied experiences with the Police and Border Security

Force, across his career. The author shares his interactions with the Khobi tribals, experiences in dealing with dacoits, opium smugglers, and his role in the development of the Riot Gun. It also details the challenges the author faced as an administrator in bringing about normalcy and restoring the credibility of 2 important universities in India. Cop to VC is the author's journey from starting as a 'cop' to becoming a VC. His memoirs virtually correspond to the contemporary history of independent India and it reflects the changing ethos of policing amidst rapid progress as well as new challenges in these years. - Rishi Kumar Shukla, CBI Director

Essential NMRCGP CSA Preparation and Practice Cases May 02 2020 The Clinical Skills Assessment (CSA) of the new Membership of the Royal College of General Practice (nMRCGP) examinations can be a daunting test: candidates face assessment on an unknown situation by a 'patient' and assessor, however, help is at hand. This book has been written by a CSA examiner in concert with GP training programme members to help candidates approach the exam feeling prepared, calm and in control. It includes advice on preparation, consultation skills, how the assessment is marked, and 12 practice CSA cases, along with advice on how candidates can create cases with which to practise and assess each other. Clear, practical, and based on sound knowledge and proven techniques, this book will be essential reading for nMRCGP CSA candidates.

'Rhona is a passionate and compassionate educator with a strong sense of natural justice, and also a long-standing MRCGP examiner. She has developed an approach to understanding and preparing for the Clinical Skills Assessment (CSA) that is already tried, tested and proven. An approach that will enhance the candidate's ability as a GP at the same time as preparing them for the CSA.' - Simon Gregory in his Foreword

The Law Professor's Handbook Jan 10 2021 The Law Professor's Handbook is designed as a guide for those who are transitioning to, engaged in, or contemplating a law school faculty position. Simply because an attorney mastered a substantive area of the law, refined his advocacy or negotiation skills, and has extensive experience in analytical thought, writing, and other scholarly pursuits, doesn't necessarily mean that he's prepared to educate others. Schachter offers information about the application process and factors to take into account in choosing amongst offers of faculty appointment. There's information about designing a course, crafting a syllabus, and choosing textual materials. In an effort to facilitate review of matters of particular interest, headings, a table of contents, and a detailed index have been included. Cross-references have also been incorporated to enable additional textual review. "I was impressed with the practical advice that The Law Professor's Handbook offered for a variety of situations. As Academic Dean, I had it distributed to many of our most

involved adjuncts... They were grateful for the information, and their feedback was overwhelmingly positive. We plan to continue distributing it to adjuncts and new faculty in the future." -- Gregory Sergienko, Associate Dean of Academics and Professor of Law at Western State University
